

Oof, he's a classy one and understandably, Hans Wegner is a cult classic in the furniture scene. A solid timber base with weaved seat. Hans is simply begging to be placed in a Scandinavian or contemporary-style kitchen, preferably neatly tucked around a white marble breakfast bar where croissants are on offer, if he's specific. However, he'll settle for other styles but you certainly won't be settling if you choose these counter stools for your kitchen.
