Table Base Guide *Turn the page to see all table bases.*

Here's a handy reference to guide you through which table base fits which top

RICARDO, CIRO, MATIAS, RAFAEL, ADELE AND GABRIEL table tops can be drilled in any location. Fit to any table base.

NB * Ricardo tops have a recessed underside / Adele tops have a timber board set 30mm inside edge, so both tops cannot be screwed directly next to the edge of the underneath of the table top.

DIEGO TABLE TOPS

Diego tabletops are supplied pre-drilled and can be screwed directly into a compatible table base.

If the pre-drilled holes do not align with your base, we recommend securing the tabletop using a strong adhesive such as Liquid Nails or Gorilla glue a similar bonding agent.

Diego pre drilled holes fit the following Chairforce bases: Adan, Carlos, Fernando, Lorenzo, Maximo, Rocco (NOT set of 2 legs), Thomas. Due to the thin thickness of these Diego table tops extreme care should be taken when assembling onto a table base.

Always double check the length of your screw compared to the thickness of the table top before you start assembly. Do not overtighten screws.

** Chairforce will not be responsible for any damage arising from improper installation of Diego tops.

PIETRA Cement Top: Pietra cannot be drilled. Metal screw holes are inset into this top for attachment. NEED MORE HELP? Please call us for more advice on what base will fit what table top.
