## Built to Last: Materials & Finishes

**Aluminium** furniture is designed to thrive in Australian outdoor conditions. Naturally resistant to rust, exceptionally durable, and delightfully lightweight, it offers style without the heaviness or upkeep of other materials.

With minimal maintenance required, just an occasional wipe down, aluminium is the perfect choice for effortless, long-lasting outdoor living and dining.

**E-Coating** is an advanced process where paint is applied using electricity to steel. Creating a smooth, even layer that coats all surfaces, including hard-to-reach areas, for excellent rust protection.

**Steel** furniture offers strength, durability, and timeless appeal, making it ideal for busy hospitality environments.

Finished with protective powder coating, steel chairs provide a resilient surface that helps resist wear while maintaining a clean, modern appearance.

# Metal Dining Chairs cont.

## Parisian Style Seating

Inspired by classic European cafés, these Parisian-style chairs feature a powder coated aluminium frame with a hand painted bamboo effect finish.

Aluminium's natural rust resistance makes these chairs ideal for hospitality use, delivering the iconic woven café aesthetic with lasting durability. All chairs are static load 150kg.

## Materials & Finishes

**Aluminium** furniture is built for Australian outdoor conditions. Naturally rust-resistant, lightweight, and durable, it offers long-lasting performance with minimal maintenance. Perfect for easy outdoor living and dining.

**E-Coating** is an advance process where paint is applied using electricity to steel. Creating a smooth, even layer that coats all surfaces, including hard-to-reach areas, for excellent rust protection.

**Steel** furniture offers strength, durability, and timeless appeal for busy hospitality environments. Finished with a protective powder coating, it provides a resilient surface that resists wear while maintaining a clean, modern look. Suitable for indoor and outdoor use.
