## Built to Last: Materials & Finishes

**Aluminium** furniture is designed to thrive in Australian outdoor conditions. Naturally resistant to rust, exceptionally durable, and delightfully lightweight, it offers style without the heaviness or upkeep of other materials.

With minimal maintenance required, just an occasional wipe down, aluminium is the perfect choice for effortless, long-lasting outdoor living and dining.

**E-Coating** is an advanced process where paint is applied using electricity to steel. Creating a smooth, even layer that coats all surfaces, including hard-to-reach areas, for excellent rust protection.

**Steel** furniture offers strength, durability, and timeless appeal, making it ideal for busy hospitality environments.

Finished with protective powder coating, steel chairs provide a resilient surface that helps resist wear while maintaining a clean, modern appearance.

Buy 50 or more of an item shown with this BULK icon, and receive \$5 off each item.

## Materials & Finishes

**Aluminium** furniture is built for Australian outdoor conditions. Naturally rust-resistant, lightweight, and durable, it offers long-lasting performance with minimal maintenance. Perfect for easy outdoor living and dining.

**E-Coating** is an advance process where paint is applied using electricity to steel. Creating a smooth, even layer that coats all surfaces, including hard-to-reach areas, for excellent rust protection.

**Steel** furniture offers strength, durability, and timeless appeal for busy hospitality environments. Finished with a protective powder coating, it provides a resilient surface that resists wear while maintaining a clean, modern look. Suitable for indoor and outdoor use.

## RAFAEL TIMBER TABLE TOP

Solid timber, finished with 3 coats of clear lacquer that brings out the beauty of the wood grain

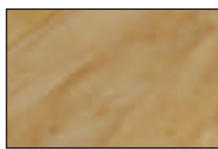

- Suitable for indoor & alfresco use
  - 30mm thick
  - Heat resistant to 100°C
  - Made with FSC certified wood - the mark of responsible forestry.
  - **Fully customisable to fit any base. Screw anywhere on underside**
- If you are screwing within 5mm of the edge, please ensure you drill a pilot hole first, to avoid splitting.**

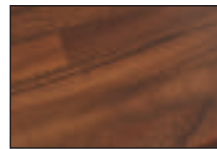

Black Rubberwood

Hardwood Ash

Rubberwood

Hardwood Walnut

## MATIAS & GABRIEL PLYWOOD / LAMINATE TOP

Durable, heat resistant laminate table top with attractive ply core edge detail

- Ply with light grey (Matias) or black (Gabriel) wood grain laminate
- Suitable for indoor & alfresco use
- 30mm thick
- Resistant to cigarette burns
- Stain, scratch, impact resistant
- Heat resistant to 100°C
- **Fully customisable to fit any base. Screw anywhere on underside**
